

Menu

Thai Traditional Massage

It is a Thai traditional folk remedy performed along energy line of the body. By improving the lymph flow and increasing metabolism, it helps to ameliorate autonomic nerves and hormone balance. Detox, facial, beautiful hair, slimming effect and the improvement of constipation can be expected.

Aroma Oil Treatment

By the treatment with high purity oil and the scent, you will experience the best relaxation.

Foot Massage

It is a Wat-Pho-style massage treated from the sole of the feet to the knee. By improving the function of internal organs, it promotes blood lymphatic flow and is effective for foot fatigue, swelling and poor circulation.

Herb Ball Therapy

We give a massage by pressing steamed cotton cloth, wrapped with dozens of herbs, along the bodyline. Herbal ingredients that penetrate from the skin increase the lymph circulation and relax the body with a thermal effect. Experience a higher relaxation with herbal scent.

*100% organic herbs used

Asthenopia Therapy

This massage is done over time applying pressure from shoulder to head and face. Improvement in eye fatigue, headache, and stiff shoulders can be expected.

**Also available for those
who do not stay at the hotel**
